

this morning, during the session. The Bienville, from Havana, br. #3,679 in specie. The payments at the Sub-Treasury, on account of Treasury Notes were abt \$1,300,000 to-day, making \$3,400,000 in two days. There is a good investment demand for the new notes, & several hundred thousand dollars have been sold at rates paying the buyer 9 1/4 per cent. interest. They will be held very firmly.

The exports continue very large, nearly double those of last year. The annexed is a Comparative Statement of the Exports (exclusive of Specie) from New-York for the week and month of Jan. 1861.

Total for the week.....\$1,151,553 \$2,565,311
Previously reported.....1,302,612 2,357,726
Since Jan. 1.....\$2,733,204 +\$4,077,597 \$7,755,495

The rate of Exchange at Chicago is softening again, the quotation is 3 1/2 to 4 per cent. On Philadelphia the rate here is 1 1/2 per cent discount, showing practical resumption of specie payment. On Baltimore 1 1/2 per cent, and Boston 1-10 1/2 per cent discount. Boston is now largely in debt to New-York.

H. D. Bacon, esq., of the Ohio and Mississippi is at Springfield, Ill., on business connected with the legislation proposed to relieve the road of some of its financial cubics. Mr. Butler of the Terre Haute Road had preceded Mr. Bacon on similar business for his road; nearly every railroad in Illinois requires some legislation at the pending session of the Legislature.

The money market is very quiet. The demand is a little more active on call, in consequence of the Treasury Note movement; but in paper there is no change. Rates have still a downward tendency, and the scarcity of strictly first-class names enables holders to sell at the legal rate.

The annexed figures of the commerce of the United States for the year ending 30th June, 1860, are from the official report in the Department:

IMPOUNDS FOR THE YEAR 1859-60.

Precious metals.....\$27,872,327
Precious goods.....35,441,441
Specie and bullion.....3,500,153

Total imports for the year.....\$82,213,941

EXPORTS FOR THE YEAR 1859-60.

Precious metals other than specie.....\$2,550,242
Precious goods and bullion.....\$56,946,831
Specie and bullion.....9,293,338 56,586,383

Total exports to foreign ports.....\$40,922,426

This shows a surplus of \$38,000,000 of exports, which, however, consisted entirely of specie. The merchandise and produce exported was \$20,000,000 less than the amount imported. The exports of specie were unprecedented. The aggregate exports and imports were greater than for any previous year.

IMPOUNDS INTO THE UNITED STATES FROM FOREIGN PORTS.

Jan. 1860. Specie and Bullion. Tot. Imports.

1858...\$5,016,724 \$1,000,000 6,016,724
